Mayor and Board of Aldermen:

Attached are the "Tax Collection Comparison for 2011 Tax Year versus 2010 Tax Year" and the delinquent personal property and real estate tax reports as of March 31, 2012 issued by the Boone County Collector's Office.

Please use the following information to assist you in reviewing the information on the delinquent personal property and real estate tax reports:

Set #1 – Delinquent **personal property** taxes due for the General Fund Revenue and the Parks & Recreation Revenue. Each revenue is listed separately by years with 1=General Fund and 2-Parks & Recreation.

Set #2 - Delinquent **personal property** taxes due for the Library General Revenue and the Library Bond Revenue. Each revenue is listed separately by years with 1=Library General Revenue and 2-Library Bond Revenue.

Set #3 - Delinquent **real estate taxes** due for the General Fund Revenue and the Parks & Recreation Revenue. Each revenue is listed separately by years with 1=General Fund and 2-Parks & Recreation

Set #4 - Delinquent **real estate taxes** due for the Library General Revenue and the Library Bond Revenue. Each revenue is listed separately by years with 1=Library General Revenue and 2-Library Bond Revenue.

Please note the "Total Due" column is the amount of **tax only** due for the year (not including the penalty).

Example: **American Inspection Services** . (Personal Property Delinquent Tax List- Page 2)

2007	General Revenue Fund(1) - set 1	\$	42.77 (tax due)
2007	Park & Recreation (2) – set 1	\$	19.15 (tax due)
2007	Library General Revenue (1) set 2	\$	5.43 (tax due)
2007	Library Bond (2) – set 2	\$.64 (tax due)
			<hr/>
			\$ 67.99 (total tax due)

The Board will be asked to approve the acceptance of these reports at Monday's meeting, April 16, 2012. City ordinance requires this report as of March 31st – fiscal year end. Please remember payments could have been made on these delinquent taxes between March 31st and now.

Also attached is a letter from Boone County Collector, Pat Lensmeyer, and reports showing the taxes that will be abated for 2006 tax year. The 1st report shows the amounts being abated for the City General Fund and the Parks and Recreation ("Centralia"). The 2nd report shows the amounts being abated for the Centralia Library General Revenue and the Library Debt Service ("Centralia Library"). Reasons for the abatement are included in the County Collector's letter.

If you have any questions regarding these reports, please contact me.

City of Centralia
Attn: Heather Lockett
114 S Rollins St
Centralia MO 65240

Dear Ms. Lockett:

I am sending two reports regarding property taxes my office bills and collects for the City of Centralia which we will provide as of March 1 each year.

1. A list of all unpaid back taxes for tax years 2011, 2010, 2009, 2008, and 2007 for which we continuously collect and distribute monthly to you and
2. A list of unpaid or partially paid property tax bills which are no longer collectible because the taxes have been, or will be, abated by the Boone County Commission. Reasons for abatement may include:
 - a. After due diligence, the owners of the personal property cannot be located; or
 - b. Bankruptcy proceedings have intervened making the balances due uncollectible; or
 - c. The real estate property was not subject to taxation after being acquired by a tax exempt owner after January 1 of the taxable year.

Also, for your information, when an auditing firm requests records or verification of collections and/or distributions made to the City of Centralia, we will provide data consistent with the statutory fiscal year for my office which is March 1 – February 29. If any other time frame is needed, the request must be made in writing thirty days prior to the “as of” date so we can compile the information after the close of a business month.

Please contact my office if you have any questions regarding this information.

Thank you,

Patricia S. Lensmeyer

Exception 2: Existing buildings undergoing repair, alterations, or additions and change of occupancy shall be permitted to comply with the requirements of Chapter 34.
- 2. *Section 101.4.3 Plumbing* Change last sentence to : The provisions of the Columbia/Boone County Health Department, the City Code of the City of Centralia, Missouri or the Missouri Department of Natural Resources shall apply to the disposal and/or treatment of sewage originating from any building constructed according to this code.
- 3. *Section 101.4.4* Property maintenance. Delete.
- 4. *Section 103* is retitled to read:
Section 103. Resource Management Department
- 5. *Section 103.1* Delete in its entirety and add:
Section 103.1 General. The Resource Management Department previously created

by the Boone County Commission is the enforcement agency for this code and the executive official in charge thereof shall be known as the building official or the code official.

6. *Section 103.2* Delete in its entirety and add:
Section 103.2 Appointment. The Director of Resource Management shall be appointed by the Boone County Commission.
7. *Section 103.3* Delete in its entirety and add:
Section 103.3 Deputies. In accordance with the prescribed procedures of Boone County and with the concurrence of the Boone County Commission, the Director of Resource Management shall have the authority to appoint a deputy building official, and related technical officers, inspectors, plan examiners and other employees. Such employees shall have the powers as delegated by the building official
8. *Section 104.6* Delete in its entirety and add:
Section 104.6 Right of entry: The code official shall have the authority to enter at any reasonable time any structure or premises for which a permit has been issued but has not received a certificate of occupancy in accordance with Sections 110.0 and 111.0. Permit holders are required to provide means of access to all parts of structures subject to inspection, including the provision of ladders where required.

For all other structures or premises, when the code official has reasonable cause to believe that a code violation exists, the code official is authorized to enter the structure or premises at reasonable times to inspect subject to constitutional restrictions on unreasonable searches and seizures. If entry is refused or not obtained, the code official is authorized to pursue recourse as provided by law.
9. *Section 104.7* Delete in its entirety and add:
Section 104.7 Department Records An official record shall be kept of all business and activities of the department specified in the provisions of this code, and all such records shall be open to public inspection at all appropriate times and according to reasonable rules to maintain the integrity and security of such records.
10. *Section 105.8* Add:
Section 105.8 Compliance with other Regulatory Agency Fire and Life Safety Codes: No permit shall be issued unless the plans and specifications or other required documentation for permit issuance has been approved by the City of Centralia or other Boone County regulatory agencies having jurisdiction for compliance with applicable fire and life safety codes. These provisions shall not apply to one and two family dwellings or residences.
11. *Section 105.9* Add:
Section 105.9 Compliance with other Regulatory Agency Fire and Life Safety Codes: No final inspection or periodic inspection made at the conclusion of a building phase shall be passed or approved unless similar inspections for compliance with applicable fire and life safety codes have been made and approved or passed by the City of Centralia or other Boone County regulatory agencies having jurisdiction. These provisions shall not apply to one and two family dwellings or residences.

12. *Section 106.1* Delete in its entirety and add:
Section 106.1 Submitted documents: Construction documents, special inspection and structural observation programs, and other data shall be submitted in one or more sets with each application for a permit . The construction documents shall be prepared by a registered design professional where required by Chapter 327 RSMo. The construction documents shall be drawn to scale with sufficient clarity and detail dimensions to show the nature and character of the work to be performed including general construction, special inspections, construction observation programs, structural, mechanical and electrical work and calculations. Each sheet of each set of plans, each set of specifications, calculations and other data shall be legally sealed by a registered design professional as required by Chapter 327 RSMo. Where special conditions exist, the building official is authorized to require additional construction documents to be prepared by a registered design professional.

Buildings or structures exempt from these requirements are:

* Use Group as set forth in Section 302.1

** Type of Construction as set forth in Section 602.2, Section 602.3, Section 602.4, and Section 602.5

NOTES TO TYPE OF CONSTRUCTION FACTOR CHART:

For R-3 Garages, the factor is .20

For unfinished basements (all use groups), the factor is .20

For finished basements (all use groups), the factor is .40

For H-1 through H-4, use H factor values

“N.P.” means Not Permitted

For large open structures (pole barns) – two cents (.02) per square foot of floor space.

For modular home – five cents (\$.05) per square foot of floor space (except for use of Type of Construction Method above for any basement).

For manufactured home or mobile home (when lawfully placed on a lot in an approved Manufactured Home subdivision as defined by Chapter 31 of the Centralia City Code) – five cents (\$.05) per square foot of floor space (except for use of Type of Construction Method above (see Notes) for any basement).

For remodeling – a minimum of twenty dollars (\$20.00), plus five dollars (\$5.00) for every two thousand dollars (\$2,000.00) in construction costs above five thousand dollars (\$5,000.00)

For any gas or HVAC installation, connection, change or upgrade requiring an inspection – a twenty dollar (\$20.00) one-time fee.

For any electric installation, connection, change or upgrade requiring an inspection – a twenty dollar (\$20.00) one-time fee.

Provided, however, fees shall not be required for the following: Fees shall not be required for permits relating to new or existing publically-owned buildings and facilities. Fees shall not be required for permits for remodeling or construction of additions to existing one-family and two-family dwellings, including new detached garages. Fees shall not be required for permits for electric or gas inspections for one-family and two -family dwellings and for manufactured homes. Fees shall not be required for permits for churches.

In addition to the fees listed above, any permit requiring a Building Plan Review shall have a fee of one hundred dollars (\$100.00).

For any construction performed without first obtaining a required permit, the permit fee shall be twice what would have otherwise been applicable.

15. *Section 109.6* Delete in its entirety and add:
Section 109.6 Refunds: In the case of the revocation of a permit or abandonment or discontinuance of a building project, the portion of the work actually completed shall be computed and any excess fee for the incomplete work shall be returned to the permit holder upon written request. All plan examination and permit processing fees and all penalties that have been imposed on the permit holder under the requirements of this code shall first be collected. The code official shall authorize the refunding of fees according to City of Centralia policies under the following additional circumstances:
- a. The full amount of any fee paid hereunder which was erroneously paid or collected.
 - b. When no work has been done, the permit fee, less a processing fee of \$20.00 may be refunded to the original permittee.

The code official shall not authorize the refunding of any fee paid, except upon written application filed by the original permittee not later than 180 days after the fee was paid.

16. *Section 113.4 Add:*
Section 113.4 Court review: Any party before the board of appeals who is aggrieved by a decision of the board of appeals may seek redress or relief before the court of competent jurisdiction as permitted by law.
17. *Section 114.4 Delete in its entirety and add:*
Section 114.4 Violation penalties: Any person who shall violate a provision of this code or shall fail to comply with any of the requirements thereof or who shall erect construct, alter or repair a building or structure in violation of an approved plan or directive of the building official or of a permit or certificate issued under the provisions of the code, shall be guilty of an ordinance violation and upon conviction, shall be punished by a fine of from one dollar (\$1.00) to not more than five hundred dollars (\$500.00). Each day that a violation continues shall be deemed a separate offense.
18. *Section 115.3 Delete in its entirety and add:*
Section 115.3 Unlawful continuance: Any person who shall continue any work in or about the structure after have been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe conditions, shall be guilty of an ordinance violation and upon conviction, shall be punished by a fine of from one dollar (\$1.00) to not more than five hundred dollars (\$500.00). Each day that a violation continues shall be deemed a separate offense.
19. *Section 116 Delete in its entirety.*
20. *Section 202.0 Add:*
Portable building – a structure constructed off-site and transported to the property by means of a truck or trailer; or one built from a pre-manufactured kit and placed on skids. Portable buildings may enclose no more than 160 sq. ft. of floor space, and not have interior finish, electrical service or plumbing fixtures. Portable buildings must comply with all setback requirements found in the zoning regulations of Chapter 31 of the Centralia City Code. Portable buildings used to house hazardous materials (paint, gasoline, etc.) must be placed at least 10 feet from any property line and have a door than can be secured by a lock.
21. *Section 903.2.1.2 Delete Item 2 and add:*
2. The fire area has an occupant load of 200 or more; or
22. *Section 903.2.7 Group M: Delete item 4 in its entirety.*
23. *Section 915.1 Delete in its entirety and add:*
Section 915.1 General. Emergency Responder radio coverage shall be provided in all new high rise buildings, and other buildings specifically required by the authority having jurisdiction based on known substantiated problems associated with radio coverage, in accordance with Section 510 of the International Fire Code.

24. *Section 1301.1.2 Add:*
 Use group R-2, R-3, and R-4 shall comply with this section or the requirements of International Energy Conservation Code. All buildings of Use Group R-2, R-3, and R-4 shall be insulated in accordance with the following:
- Ceiling or roof – R-38
 - Exterior wall – R-15 for the assembly
 - Floor above unheated area or crawl space and ducts in ventilated attic or crawl space – R-19
 - Walls separating one- and two-family dwellings from garage areas, walls facing ventilated attic spaces and finished exterior basement walls – R-13.
 - Ducts in unheated area not exposed to outside ventilation – R-4.
 - Joints in the building conditioned envelope that are sources of air leakage, such as around window and door frames, between wall cavities and window or door frames, between wall assemblies or their sill plates and foundations, between utility service penetrations through the building envelope, shall be properly sealed with compatible and durable caulking, gasketing, weatherstripping or other material in an approved manner.
 - All exterior walls shall have a vapor retarder capable of reducing capable of reducing vapor transmission to less than 1 perm, installed on the inside or the warm surface side of the insulated wall or ceiling. Only those ceilings that are attached directly to the underside of the roof rafters, such as flat roofs or cathedral ceilings, are required to install the vapor retarder.
 - All windows shall have a minimum Thermal Transmittance (U) value of 0.55.
25. *Section 1604.1 General.* Add the following to the paragraph:
 The following standard structural design criteria are established.:
1. Roof Live Load, Minimum Unreduced = 20 psf.
 2. Snow Load (General Snow Load) $P_g = 20$ psf.
 3. Wind Loading (Basic wind speed (3 second gust) $V = 90$ mph.
 4. Seismic Loading
 - a.. Site Class D, default site class per 1613.5.2
 - b. Mapped Spectral response accelerations
 - (1) $S_s = 0.213$
 - (2) $S_1 = 0.093$
26. *Section 1801.2 Design Basis.* Add the following to the paragraph:
 The following standard design criteria are established:
1. Foundation Frost Depth, Minimum – 30" (refer to 1809.5.1).
 2. Presumptive net allowable foundation bearing pressure = 150 psf (refer to 1803.1 and 1806.2). Note that Section 1803.5.11 and Section 1803.5.12 require a geological investigation if the structure has a seismic design category of C, D, E, or F.
27. *Section 1808.6.2 Slab-on-ground foundations* Add :
Exception: Slab-on-ground systems that have performed adequately in soil conditions similar to those encountered at the building site are permitted subject to the approval of the building official.

28. Add Sections 1811, 1811.1, 1811.2.1, 1811.2.2, 1811.2.3, 1811.2.4, 1811.2.5, 1811.2.6, 1811.3, 1811.3.1, 1811.3.2, 1811.3.3, 1811.4, 1811.5, and 1811.6 as follows :

Section 1811 Retaining Walls

1811.1 In addition to the other requirements as stated in this code the following provisions shall apply to retaining walls.

1811.2.1 Retaining Wall–Plan review and construction inspections process. Integral to the building foundation. The building code defines a retaining wall as a wall not laterally supported at the top that resists lateral soils load and other imposed loads. Retaining walls that are integral to the building foundation must be approved by the Resource Management Department prior to the issuance of a building permit.

1811.2.2 Retaining Wall–less than four (4) feet in height measured from the bottom of the footing to the top of the wall. Detailed plans are not required. However, site plans at a minimum should indicate top and bottom of wall elevations, existing and proposed contours, drainage features, buildings and property line, public easements, parking facilities and streets. Furthermore, the City retains the right to require additional design information regarding tiered retaining walls if there is a concern that the upper wall may impose a surcharge condition on the lower wall. These items will be required prior to the issuance of a building permit.

1811.2.3 Retaining Wall–greater than four (4) feet in height. Detailed plans and calculations are required to be submitted to the Resource Management Department. However, only the items mentioned above must be submitted prior to the issuance of a building permit. The following additional items must be submitted prior to the beginning of wall construction:

1. A typical section showing wall and footing dimensions, backfill slopes, steel/geotextile reinforcement details, weep hole locations and subsurface drainage systems.
2. Engineering calculations for the design of the wall, noting all assumptions such as concrete and steel reinforcement strengths, soil parameters, surcharges, bearing pressures, safety factors for bearing capacity, overturning, sliding external and internal stability and deep-seated shear failure.
3. Construction plans should specify the type of backfill to be used and any soil testing requirements if not granular. A geotechnical investigation and report is recommended but not required.

1811.2.4 Failure to submit the above information prior to the beginning of the way construction may result in the issuance of a stop work order by the Resource Management Department until such time the retaining wall design is reviewed and approved.

1811.2.5 First time submittals for plan review can take up to two (2) weeks for review. Additional submittals have a turn around time of one (1) week. The

contractor should plan submittals accordingly to avoid unnecessary delays in construction

1811.2.6 All plans, profiles, cross-sections and calculations must be prepared and sealed by a registered professional engineer licensed in the State of Missouri. The professional engineer is responsible for all aspects of the retaining wall design. The use of standard drawings from reputable manufacturers is allowable and even encouraged, but the professional engineer who seals the drawings and computations is responsible for the retaining wall design. In the absence of sufficient geotechnical information, the engineer shall be responsible for any design assumptions. Approval of the necessary plans and calculations will not transfer or share responsibility of the retaining wall design to the City of Centralia, Missouri.

1811.3 Following construction the engineer must submit a “certificate of conformance” indicating that the backfill and foundation material used met the requirements of the original design. This certificate must be signed and sealed by a registered professional engineer licensed in the State of Missouri and , at a minimum, indicate the wall was inspected at the follow specified milestones:

1811.3.1 For Concrete Walls

1. Footings prior to the pouring with reinforcement in place.
2. Walls prior to pouring with reinforcement in place.
3. At the beginning of the backfill operation.
4. Following completion of the wall.

1811.3.2 For Modular Walls

1. Footing or bearing pads.
2. During backfill operations and for the first layer of soil reinforcement.
3. Following completion of the wall..

1811.3.3 The City retains the right to request additional special inspections for items such as: vicinity to public streets or permanent residences, excessive wall heights or potential for groundwater or surface runoff problems.

1811.4 Additional information. Retaining walls shall be designed to ensure stability against overturning, sliding, excessive foundation pressure and water uplift. Retaining walls shall be designed for a safety factor of 1.5 (Note: If the backfill or underlying soil is clay or clayey silt, the safety factor should be increased to 2.0) against lateral sliding and overturning and a bearing capacity of 3.0.

Retaining walls with grade difference in excess of thirty (30) inches are required to have a fence or guardrail protecting the public from injury. The fence or guardrail must be a minimum of thirty-six (36) inches in height in residential applications and forty-two (42) inches in commercial applications. The vertical balusters and bottom rail must be situated so that a four (4) inch sphere cannot pass between any portions of the fence. Horizontal balusters will not be permitted.

1811.5 The property owner (or the property owner’s representative) must ensure that the retaining wall is properly designed and constructed. The property owner is

responsible for maintenance and repairs of all retaining walls on the property. Developers are not allowed to construct retaining walls of any size within the public right-of-way without prior review and approval of the Resource Management Department.

1811.6 All retaining walls must be installed, inspected and issued a certificate of conformance prior to the occupancy being issued or approved by the building official. The building official retains the right to waive this requirement under special circumstance.

29. *Section 3109.4* Delete in its entirety and add:
Residential swimming pools: Residential swimming pools shall comply with Sections 3109.4.1 through 3109.5. Residential swimming pools shall be enclosed by a barrier consisting of metal chain link fence, wood, stone or masonry or other material approved by the building official. All swimming pool excavation sites are required to be enclosed by a temporary construction barrier during installation. A permanent barrier shall be installed upon completion of the pool structure.

SECTION 2. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

SECTION 3. This ordinance shall take effect and be in full force and effect from and after the date of its passage and approval.

PASSED this 16th day of April, 2012.

BILL NO.

ORDINANCE NO.

A BILL TO CREATE AN ORDINANCE ENTITLED:

“AN ORDINANCE AMENDING ARTICLE V OF CHAPTER FIVE OF THE CENTRALIA CITY CODE TO ADOPT THE 2008 EDITION OF THE NATIONAL ELECTRICAL CODE, GOVERNING THE DESIGN, INSTALLATION AND CONSTRUCTION OF ELECTRICAL SYSTEMS, BY PROVIDING REASONABLE SAFEGUARDS TO PROTECT THE PUBLIC HEALTH AGAINST THE HAZARDS OF INADEQUATE, DEFECTIVE OR UNSAFE ELECTRICAL INSTALLATIONS; KNOWN AS THE ELECTRICAL CODE OF THE CITY OF CENTRALIA, MISSOURI.”

WHEREAS, one copy of “The National Electrical Code/2008 Edition” was filed in the office of the City Clerk of the City of Centralia, Missouri beginning November 23, 2011, as announced by public notice in the November 30, 2011 issue of the Centralia Fireside Guard newspaper, and kept available for public use, inspection, and examination in the office of said City Clerk for more that 90 days from and after November 30, 2011; and

WHEREAS, notice of public hearing regarding the proposed adoption of “The National Electrical Code/2008 Edition” was given that a public hearing would be held on March 12, 2012 at the hour of 7:00 p.m. in the City Hall Council Chambers in Centralia, Missouri, said notice have been published in the March 7, 2012 issue of the Centralia Fireside Guard, a weekly newspaper of general circulation in Centralia, Missouri; and

WHEREAS, a public hearing was held at 7:00 p.m. on March 12, 2012 in the City Hall Council Chambers in Centralia, Missouri, by the Board of Aldermen, at which hearing citizens were given an opportunity to be heard in relation to the said proposed adoption of said electrical code.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF ALDERMEN OF THE CITY OF CENTRALIA, MISSOURI, as follows:

SECTION 1. Article V of Chapter 5 of the Centralia City Code shall be changed, altered and amended to read as follows:

Section 5-28 Adoption of the Electrical Code

That a certain document, one (1) copy of which is on file in the office of the City Clerk of the City of Centralia, Missouri, being marked and designated as “The National Electrical Code/2008 Edition”, approved by the National Fire Protection Association, be and the same is hereby adopted as the Electrical Code of the City of Centralia, Missouri, for the control of buildings and structures as provided herein; and each and all of the regulations, provisions, penalties, conditions and terms of “The National Electrical Code/2008 Edition” are hereby referred to, adopted and made a part hereof as if fully set out in this Chapter, with the additions, insertions, deletions and changes as hereinafter prescribed in Section 5-29.

Section 5-29. Amendments to The National Electrical Code/2008 Edition

The National Electrical Code/2008 Edition is amended by additions, deletions, and changes including the changing of Articles, Sections, Subsections, Subsection Titles, and the addition of new Sections and new Subsections to read as follows:

1. *Add Article 90-10:*
Plans and Specifications: Plans and specifications shall be required on all work involving commercial, industrial, multiple family and buildings used for purposes of public assembly, or as determined by the code official.
2. *Add Article 90-11:*
Violations Penalties: Any person who shall violate a provision of this code or shall fail to comply with any of the requirements thereof or who shall install, alter or repair electrical wiring in violation of this Code or without a proper permit shall be guilty of an ordinance violation, and upon, conviction, shall be punished by a fine of from one dollar (\$1.00) to not more than five hundred dollars (\$500.00). Each day that a violation continues shall be deemed a separate offense.
3. *Add Article 90-12:*
Means of Appeal: The owner of a building or structure or any other person may appeal a decision of the code official. Application for appeal may be filed in the office of the Resource Management Department of Boone County, Missouri.
4. *Add Article 90-13:*
Membership of the Board of Appeals: For the purposes of the Electrical Code, the Board of Appeals appointed under Section 113 of the International Building Code – 2009 Edition as adopted by Section 5-27 of the Centralia City Code shall serve as the Board of Appeals for matters referred to it for consideration under the Electrical Code. Provisions in the International Building Code – 2009 Edition shall apply for all appeals filed under the National Electrical Code/2008 Edition.
5. *Add Article 90-14:*
Code Official: The City Administrator shall be the code official for the City of Centralia, Missouri. The administration and enforcement of this Chapter shall be the duty of said Code Official, who is authorized to take such action as may be reasonably necessary to enforce this Chapter, and who may designate such City employees as are necessary to assist him in enforcing this Chapter. The City Administrator may designate one (1) or more employees of the City of Centralia, Missouri to perform a part of the duties of the Code Official to enforce this Chapter. He further may, with the approval of the Board of Aldermen by ordinance, contract for all or port of the duties of Code Official under this Chapter to be performed by the Resource Management Department of Boone County, Missouri.
6. *Add Article 90-15:*
Fee Schedule: The fees for electrical work shall be as set forth in Section 5-27 of the Centralia City Code.
7. *Add Article 90-16:*
Refunds: In the case of a revocation of a permit or abandonment or discontinuance of a building project, the portion of the work actually completed shall be computed and any excess fee for the incomplete work shall be returned to the permit holder upon written request. All plan examination and permit processing fees and all penalties that have been imposed on the permit holder under the requirements of

the code shall first be collected. The code official shall authorize the refunding of fees according to the policies of the under the following additional circumstances:

- a. The full amount of any fee paid hereunder which was erroneously paid or collected.
- b. When no work has been done, the permit fee, less a processing fee of 25% of the original fee, may be refunded to the original permittee.

The code official shall not authorize the refunding of any fee paid, except upon written application filed by the original permittee not later than 180 days after the fee was paid.

8. *In Article 100, add in the list of definitions:*
Agriculture or Farming Activity: An agricultural activity shall be defined as the cultivating of the soil, producing of crops and the raising of animals for food or fiber and including horticulture, beekeeping, aquaculture, silviculture and forestry. Concentrated animal feeding operations must conform to the Missouri Department of Natural Resources' regulations pertaining to waste water management and odor control. The raising and keeping of horses for any purpose other than the production of food and fiber is not considered agricultural activity.
9. *In Article 100, delete the definition of Switch, Transfer and add:*
Switch, Transfer: An automatic or non-automatic device for transferring one or more load conductor connections from one power source to another. The transfer switch on activation shall disconnect all current carrying conductors to include the neutral to prevent back-feed to the utility.
10. *Delete 110.5 and add:*
Conductors: Conductors normally used to carry current shall be of copper unless otherwise provided for in this code. Where the conductor material is not specified, the sized given in this code shall apply to copper conductors. Where other materials are used, the size shall be changed accordingly. Aluminum and copper aluminum will be approved as outside feeders of 100 amperes or larger and must terminate nearest the point of entrance of the feeder; or as designed and recommended by a registered professional engineer or a registered architect.

(FPN) For aluminum and copper-clad aluminum conductors, see Sections 250.120 (B), 310-14.
11. *Delete Article 210.8 (A) (5) Exception in its entirety and insert:*
Exception No. 1 to (5): Receptacles that are not readily accessible.

Exception No. 2 to (5): A single receptacle or a duplex receptacle for two appliances located within dedicated space for each appliance that, in normal use, is not easily moved from one place to another and that is cord and plug connected in accordance with 400.7 (A)(6), (A)(7), or (A)(8).

Exception No. 3 to (5): A receptacle supplying only a permanently installed fire alarm or burglar alarm system shall not be required to have ground-fault circuit-

interrupter protection.

12. *Delete Article 210.8(A)(7) in its entirety and insert:*
Laundry, utility and wet bar sinks—where the receptacles are installed within 1.8 m (6 ft.) of the outside edge of the sink. Dedicated circuits receptacles installed for specific appliances such as clothes washers, refrigerators and microwaves shall not be required to be GFCI-protected where located within 6 feet of laundry, utility or wet bar sinks in a dwelling. A duplex receptacle may be used for a single appliance provided the duplex receptacle is located behind the appliance which, in normal use, is not easily moved and the receptacle is not readily accessible for the use of power tools. This receptacle must be marked “Not GFCI protected.” Receptacles installed under the exceptions to 210.8 (A)(7) shall not be considered as meeting the requirements of 210.52 (G).
13. *Delete Article 210.12 (B).*
14. *In Article 210.52(C)(5) Exception:* Delete the second sentence to the first paragraph that reads: “Receptacles mounted below a countertop in accordance with this exception shall not be located where the countertop extends more than 150mm (6 inches) beyond its support base.” The rest of the section remains as stated. This definition is to allow the placement of the receptacle no more than 12 inches below the countertop, and anywhere the countertop extends beyond its support base.
15. *Delete Article 210.52(B)(3) and add:*
Receptacles installed in the kitchen to serve countertop surfaces shall be supplied by not less than two small appliance branch circuits, except that these circuits shall also be permitted to serve electric clock receptacles and electric loads associated with gas-fired appliances.
16. In Section 210.63 Heating, Air-conditioning, and Refrigeration Equipment Outlet, existing exception to be shown as Exception No. 1 and add Exception No. 2: Rooftop and exterior equipment on one- and two-family dwellings.
17. *Delete Article 230.50(B)(1)(3) and add:*
(3). Schedule 40 rigid nonmetallic conduit or equivalent
18. *Article 230.70(A)(1): Add:*
Inside the nearest point of entrance is defined as the first full stud space inside structure.
19. *Delete Article 250.50 and add:*
Grounding Electrode System. All grounding electrodes as described in 250.52(A)(1) through (A)(7) that are present at each building or structure served shall be bonded together to form the grounding electrode system. Where none of these grounding electrodes exist, one or more of the grounding electrodes specified in 250.52(A)(4) through (A)(8) shall be installed and used, except where there exists a metal water pipe in contact with earth for 10 feet or more, for one-and two-family dwellings, a single grounding electrode as required by the serving electrical utility shall be permitted to fill the requirements of Article 250.50.

20. *Delete Article 250.94 in its entirety.*
21. *Delete Article 300.5 (D)(3) in its entirety and add:*
(3) Service Conductors. Warning tape shall be installed a minimum of six (6) inches below grade and not less than six (6) above the electrical cables or conduit in all underground installations of 50 volts or more.
22. *Delete Article 300.5 (D)(4) in its entirety and add:*
(4) Enclosure and Raceway Damage: Where the enclosure or raceway is subject to physical damage, the conductors shall be installed in rigid metal conduit, intermediate metal conduit, Schedule 40 rigid nonmetallic conduit, or equivalent.
23. *Article 300.9 Raceways in Wet Locations Above Grade: Delete in its entirety:*
24. *Article 314.23 (B)(1) Nails and Screws: Add last sentence to paragraph: Screws may be installed through the interior sides of a nonmetallic box to mount or fasten the box in place regardless of its listing and labeling, provided the heads of the screws are covered or coated with a nonmetallic material.*
25. *Article 334.12 Uses Not Permitted. (A) Types NM, NMC, and NMS. Delete the following in its entirety: "(2) Exposed in dropped or suspended ceilings in other than one- and two-family and multi-family dwellings."*
26. *Article 334.12 Uses Not Permitted (B) NM and NMS. Add:*
Exception: Type NMS cable shall be permitted in wet or damp locations.
27. *Article 334.15 (B) Protection from Physical Damage: Where schedule 80 PVC is stated in first paragraph, replace with schedule 40 PVC or better to read. "Cable shall be protected from physical damage where necessary by rigid metal conduit, electrical metallic tubing, Schedule 40 PVC conduit or better or other approved means. Where passing through a floor, the cable shall be enclosed in rigid metal conduit, intermediate metal conduit, electrical metal tubing, Schedule 40 PVC conduit or better or other approved means extending at least 150 mm (6 inches) above the floor."*
28. *Delete Article 334.80 Ampacity in its entirety and add:*
Article 334.80 Ampacity. The ampacity of Types NM, NMC, and NMS cable shall be determined in accordance with 310.15. The ampacity shall be in accordance with the 60 degrees C (143 degrees F) conductor temperature rating. The 90 degree C (194 degree F) rating shall be permitted to be used for ampacity derating purposes, provided the final derated ampacity does not exceed that for a 60 degree C (140 degree F) rated conductor. The ampacity of Types NM, NMC, NMS cable installed in cable tray shall be determined in accordance with the 392.11.

Where more than two NM cable containing two or more current-carrying conductors are installed, without maintaining spacing between the cables, through the same opening in wood framing that is to be fire- or draft-stopped using thermal insulation,

caulk or sealing foam. The allowable ampacity of each conductor shall be adjusted in accordance with Table 310.15(B)(2)(a).

29. Section 342.30(C), Section 344.30(C), Section 352.30(C), Section 355.30(C), and Section 358.30(C): Securing and Supporting Unsupported Raceways. For each reference section, delete the first half of the first sentence that states: "Where oversized concentric or eccentric knockouts are not encountered," The rest of each paragraph remains as stated.

30. *Delete Article 406.8(A) in its entirety and add:*
(A) Damp locations. A receptacle installed outdoors in a location protected from the weather or in other damp locations shall have an enclosure for the receptacle that is weatherproof when the receptacle is covered (attachment plug cap not inserted and receptacle covers closed.)

(4) The occupiable space is provided with an egress door in accordance with Section R311.2 or by a ramp in accordance with Section R311.8 or a stairway in accordance with Section R311.7.
17. *In Table R301.2(1) insert the following values:*
Ground Snow Load – 20 lbs/sq. ft.
Wind Sped – 90
Topographic Effects – No
Seismic Design Category – B
Weathering – Yes; Severe
Frost Line Depth – Yes; 30 inches
Termite – Moderate to Heavy
Decay – Slight to Moderate
Winter Design Temp – +4c Fahrenheit
Ice Barrier Underlayment Required – No
Flood Hazards – 6/2/1975 and 2/2/11 – dates of adoption of flood regulations
3/17/11 – date of Flood Insurance Rate Maps
Air Freezing Index – 0 to 1000
Mean Annual Temperature – 55c Fahrenheit
18. *Add new Section R301.9:*
R301.9 Sediment Control: all sites are subject to providing on-site sediment control structures to minimize to the maximum extent practical the erosion of soil from the building site. Acceptable practices include, but are not limited to, use of silt fences, straw bales and rock check dams. Failure to provide and maintain such sediment control devices could result in inspections being withheld, issuance of a stop work order or even revocation of the building permit.
19. *In Section R302.1 add new exception 6:*
6. A detached accessory garage or shed located not less than three (3) feet from any side lot line.
20. *Delete exception to Section R302.2 and substitute:*
Exception: A common two (2) hour fire-resistance rated wall assembly tested in accordance with ASTM E 119 or UE 263 is permitted for townhouses if such walls do not contain plumbing or mechanical equipment, ducts or vents in the cavity of the common wall. The wall shall be rated for fire exposure from both sides and shall extend to and be tight against exterior walls and the underside of the roof sheathing. Electrical installations shall be installed in accordance with Chapter 34 through 43. Penetrations of electrical outlet boxes shall be in accordance with Section R302.4

21. *Amend Section R302.6 Dwelling/garage separation as follows:* Replace one-half (1/2) inch gypsum board with five-eighths (5/8) inch gypsum board in referenced Table R302.6 Dwelling/garage fire separation. Add last sentence to paragraph of R302.6: The garage shall be completely separated from the residence and its attic area by means of five-eighths (5/8) inch gypsum board or equivalent applied to the garage side.
22. *Add Section R307.3:*
R307.3 Water closet: All water closets shall be spaced at least fifteen (15) inches from the centerline of the fixture to any wall or plumbing fixture , except the centerline of the water closet may be spaced twelve (12) inches if located next to a bathtub.
23. *Delete Section R311.7.4.1 and add:*
R311.7.4.1 Riser Height: The maximum riser height shall be seven and seven-eighth (7 7/8) inches (200 mm). The riser shall be measured vertically between leading edges of the adjacent treads. The greatest riser height within any flight of stairs shall not exceed the smallest by more the 3/8 inch (9.5 mm).
24. *Delete Section R313 in its entirety and add:*
R313 Automatic Fire Sprinkler System: A builder of a single-family dwelling or residences or multi-unit dwelling of four or fewer units shall offer to any purchaser on or before the time of entering into the purchase contract the option at the purchaser's cost to install or equip an automatic fire sprinkler system in the dwelling, residence or unit. Notwithstanding any provision of law to the contrary, no purchaser of such a single-family dwelling, residence, or multi-unit dwelling shall be denied the right to choose or decline to install an automatic fire sprinkler system in such dwelling or residence being purchase4d by any code, ordinance, rule, regulations, order or resolution by any county or other political subdivision. Any county or other political subdivision shall provide in any such code, ordinance, rule, regulations, order or resolution the mandatory option for purchasers to have the right to choose and the requirement that the builders offer to purchasers the option to purchase an automatic fire sprinkler system in connection with the purchase of any single-family dwelling, residence, or multi-family dwelling of four or fewer units.
25. *Delete Section R314.4 in its entirety and add:*
R314.4 Power source: In new construction, required smoke detectors shall receive their primary power form the building wiring when such wiring is served from a commercial source. In addition to the required primary power source, required smoke detectors shall receive power from a battery when the primary power source is interrupted. Smoke detectors may be batter operated when installed in existing buildings, or in buildings without commercial power, or in buildings which undergo alterations, repairs or additions as regulated by Section R3124.3.1.
26. *Delete Section R315.2 in its entirety and add:*
R315.2 When required in existing dwellings. Where work requiring a permit occurs inside an existing dwelling that has an attached garage or inside an existing dwelling within which

fuel-fired appliances exist, a carbon monoxide alarm shall be provided in the immediate vicinity of the bedrooms.

27. *Amend Section R322.1 General by adding the following after the last sentence to read:*
All construction must also comply with Centralia City Code, Chapter 12 Flood Regulations.
28. *Amend Table R401.4.1 PRESUMPTIVE LOAD-BEARING VALUES OF FOUNDATION MATERIALS:* Load-bearing Pressure (pounds per square foot) column, change values for clay, sandy clay, silty clay, clayey silt, silt and sandy silt (CL, ML, MH and CH) from 1,5000 to 2,000, leaving footnote b.
29. *Amend Figure R403.1(1) Concrete and Masonry Foundation Details:*
A monolithic slab with integral footing shall have the following: a #4 reinforcement bar spaced a minimum of forty-eight (48) inches on centers to provide connection of footing to slab. The vertical rods shall extend to within four (4) inches of the bottom of the footing and be turned to provide a horizontal leg that extends a minimum of twelve (12) inches into the slab.
30. *Section R403.1.8 Foundations in expansive soils. Delete first sentence and add:*
“Foundation and floor slabs for buildings located on expansive soils shall be designed in accordance with Section 1808.6 of the International Building Code.”
(The rest of the section remains as stated.)
31. *For Section R404.1 Concrete and masonry foundation walls. Add additional paragraph:*
Drawings showing options labeled as drawing 1.1, 1.2, 1.3, 1.4, 2.1, 2.2, 3.1 and 3.2 are intended to be alternative methods to comply with the 2009 International Residential Code Section R404.1.2 Concrete foundation walls and subsections for connection of foundation to floor; and option labeled as drawing 4 is intended to be in compliance with 2009 International Residential Code Section R404.1.2 Concrete foundation walls and subsections for reinforcement in walls and connection of foundation walls to floor.
NOTE: Drawings as stated above are on file in the office of the building official.
32. *For Section R404.4 Retaining Walls: Change twenty-four (24) inches (610 mm) to read forty-eight (48) inches (1219 mm); rest of the paragraph remains as stated.*
33. *Delete Section R405.1 Concrete or masonry foundations and add:*
Drains shall be provided around all concrete or masonry foundations that retain earth and enclose habitable or useable spaces located below grade. Drainage tiles, gravel or crushed stone drains, shall be installed at or below the area to be protected and shall discharge by gravity or mechanical means into an approved drainage system. Gravel or crushed stone drains shall extend at least one (1) foot (305 mm) beyond the outside edge of the footing and six (6) inches (152 mm) above the top of the footing and be covered with an approved filter membrane material and shall include a drain tile pipe as shown in Figure R405.1. The drain pipe can be

placed directly on top of the footing. The top of open joints of the drainage tiles or perforated pipe shall be protected with strips of building paper, and the drainage tiles or perforated pipe shall be placed directly on the top of the footing or placed on a minimum of two (2) inches (51 mm) of washed gravel or crushed rock at least one size larger than the tile joint opening or perforation and covered with not less than six (6) inches (152 mm) of the same material. Foundation Drainage Figure R405.1 as adopted, shall be considered to satisfy the provision of this subsection.

NOTE: Foundation Figure R405.1 as stated above is on file in the office of the building official.

34. *Delete the first paragraph of Section R502.11.4 and add:*
Truss design drawings: Truss design drawings, prepared in compliance with Section R502.11.1 shall be available on-site at the time of inspection and shall be provided to the building official at that time. Truss design drawing shall be provided with the shipment of trusses delivered to the job site. Truss design drawings shall include, at a minimum, the information specified below: (remainder of section unchanged).
35. *Delete Section R612.2 Window sills*
36. *After the last line of Section R802.3.1 add:*
Rafter ties shall be spaced not more than 4 feet (1219 mm) on center.
37. *Delete Section N1102.1 and add:*
Section N1102.1 Insulation and fenestration criteria. The building thermal envelope shall meet the requirements listed below.
38. *Replace Table N1102.1 INSULATION AND FENESTRATION REQUIREMENTS BY COMPONENT with:*

BUILDING AREA AND REQUIRED INSULATION VALUE

1. Ceiling or roof – R-38.
2. Exterior wall – R-15.5 for the assembly.
3. Floor above unheated area or crawl space and ducts in ventilated attic or crawl space – R-19.
4. Walls separating one- and two-family dwellings from garage areas, walls facing ventilated attic spaces and finished exterior basement walls – R-12.
5. All windows shall have a maximum Thermal Transmittance (U) value of 0.35.
6. Skylights shall have a maximum U-0.60.
7. M Wall – R-5, or R-10 when more than half the insulation is on the interior.
8. Basement walls or crawl space walls – R-10 if continuous insulation, or R-13 if framing cavity insulation.
9. All slab-on-grade with embedded heating systems must have a minimum of R-5 insulation installed beneath the slab. Insulation shall have a sufficient compressive strength to bear the weight of the structure and be of a type approved for underground installation. Insulation shall be required under the full heated area of the slab, except where the slab bears on footings, and within twelve (12) inches of any opening in the slab to the interior space.
10. All exterior walls shall have a vapor retarder, capable of reducing vapor

transmission to less than 1 perm, installed on the inside of the warm surface side of the insulated wall or ceiling. Only those ceilings that are attached directly to the underside of the roof rafters, such as flat roofs or cathedral ceilings, are require to install the vapor retarder.

39. *Delete Section N1102.2.8 Slab-on-grade floors*
40. *Amend Table N1102.4.2 Air Barrier and insulation inspection as follows:*
Under heading “component”, line item for “recessed lighting”, in criteria column remove the work “airtight.”
41. *Delete last sentence of Section N1103.1.1 Programmable thermostat and add:*
The thermostat should initially be programmed with a heating temperature set point no higher than 70c F (21c C) and a cooling temperature set point no lower than 78c F (26c C).
42. *Delete Section N1103.2.2 Sealing and add:*
N1103.2 Sealing. Ducts, air handlers, filter boxes and building cavities used as ducts shall be sealed. Joints and seams shall comply with Section M1601.4
Exception: duct tightness is not required if the air handler and all ducts are located within conditioned space.
43. *Delete Section N1104.1 Lighting equipment and add:*
N1104.1 Lighting equipment: A minimum of fifty percent (50%) of the lamps in permanently installed lighting fixtures should be high efficiency lamps.
44. *Section M1411.3.1 Auxiliary and secondary drain systems: Add the following sentences to the end of paragraph #3:*
Only one water level detection device conforming to UL 508 that will shut off the equipment served prior to overflow of the pan is required by this section.
45. *Amend Section M1501.1 Outdoor discharge delete exception and add:*
Exception No. 1: Whole-house ventilation-type attic fans that discharge into the attic space of dwelling units having private attics shall be permitted.
Exception No. 2: Air may be discharged into a soffit vent if composed of approved materials as determined by the building official.
46. *Section M1506.2 Recirculation of air add exception:*
Exception: Air may be exhausted into a soffit vent if composed of approved materials as determined by the building official
47. *Section M2103.2.2 Suspended floor installations add exception:*
Exception: For direct contact plate systems, no insulation is required as long as space below is habitable.
48. *Delete Section G2414.5.2 and add:*
Copper tubing: Copper tubing shall comply with standard Type K or L of ASTM B 88 or ASTM B 280.

Copper and brass tubing shall not be used if the gas contains more than an average of 0.3 grains of hydrogen sulfide per 100 standard cubic feet of gas (0.7 milligrams per 100 liters). Natural gas supplied by Ameren UE in Boone County exceeds this level; therefore, copper or brass shall not be used with natural gas.

49. *Section G2415.12 add to end of paragraph:*
Any underground gas piping allowed by this section shall only be approved for gas that is less dense than the atmospheric pressure and shall be installed in accordance with G2415.12.1.
50. *Delete Section G2415.12.2 in its entirety.*
51. *Delete first sentences of Section G2417.4.1 Test pressure and add:*
G2417.4.1 Test pressure The test pressure to be used shall be not less than one and one-half (1.5) times the proposed maximum working pressure, but not less than thirty (30) psig, irrespective of design pressure. (Rest of section remains as stated.)
52. *Add Section P2602.1.1:*
P2602.1.1 Public water supply: A public water supply is considered available if a lot is within 300 feet of a public water main to which connection is practical and is permitted by the governmental agency or utility responsible for the water main.
53. *Add Section P2602.1.2:*
P2602.1.2 Public sewer system: A public sewer system is considered available if a lot is within 225 feet of a sanitary sewer system to which connection is practical and is permitted by the governmental agency or utility responsible for the sanitary sewer.
54. *Delete Section P2603.6 Freezing in its entirety and add::*
P2603.6 Freezing. A water, soil or waste pipe shall not be installed outside of a building, or concealed in outside walls, or in any place subjected to freezing temperature, unless adequate provision is made to protect such pipe from freezing by insulation, heat or both. Water pipes shall not be installed in an exterior wall cavity in one- and two-family dwellings. For purposes of this section exterior wall cavities shall mean all walls that rain can fall upon. Water service piping shall be installed below recorded frost penetration but not less than thirty (30) inches below grade.
55. *Delete Section P2603.6.1 and add:*
P2603.6.1 Sewer depth: Building sewers that connect to private sewage disposal systems shall be a minimum of thirty (30) inches below finished grade at the point of septic tank connection. Building sewers shall be a minimum of thirty (30) inches below grade.
56. *Section P2604.3 Backfilling delete last sentence which reads: "Loose earth shall be carefully placed in the trench in 6-inch (152 mm) layers and tamped in place."*
57. *Amend first sentence of Section P2705.1 Water closets, lavatories and bidets. #5 to read:*
All water closets shall be spaced fifteen (15) inches from the centerline of the fixture

to any wall or plumbing fixture except the centerline of the water closet may be spaced twelve (12) inches if located next to the bathtub. (Rest of the paragraph remains as stated.)

58. *Section P2903.5 Water hammer add exception:*
Exception: A water-hammer arrestor is not needed in water distribution systems using PEX piping or systems using a combination of PEX and copper.
59. *Amend Section P2905.4 Water service pipe as follows:*
Where this section references one hundred sixty (160) pounds per square inch replace with two hundred (200) pounds per square inch.
60. *Amend first sentence of Section P3005.2.4 change of direction to read:*
Cleanouts shall be installed at each fitting with a change of direction more than 45 degree (0.79 rad) horizontal to horizontal in the building sewer, building drain and horizontal waste or soil lines. (Rest of paragraph remains as stated.)
61. *Section P3111.1 Type of fixtures. add exception:*
Exception: Residential food waste grinders shall be allowed to discharge into a combination waste and vent system provided an air admittance valve is installed.
62. *Section P3113.1 Size of vents. Add sentence at end of paragraph as follows:*
At least one (1) vent shall be three (3) inch unreduced in size extending from the main building drain through the roof.
63. *Delete Section P3201.2 Trap seals and trap seal protection.*
64. *Except as stated in Sections E3608.1.1 Exception, E3609.6.1 and E3609.7 of this ordinance, Chapters 34 through 43 of the International Residential Code are superseded by the requirements as stated in the 2008 National Electrical Code (NEC 70-2008).*
65. *Section E3608.1.1 Installation. Add exception :*
E3608.1.1 Exception: When a concrete-encased electrode and/or ground ring are not available for use in a grounding electrode system, a rod or other electrode as specified in E3608.1.4 Rod and pipe electrodes and E3608.1.5 Plate electrodes can be used as a substitute. The second rod electrode shall not be connected in series with the first rod electrode except where there exists a metal water pipe in contact with earth for ten (10) feet or more, for one- and two-family dwellings a single grounding electrode placed at the outside of the building at the nearest point of the service disconnect shall be permitted to fill the requirements of this section.
66. *Add Section E3609.6 Water heater bonding jumper to read:*
E3609.6. Water heater bonding jumper. The interior metal water piping bonding shall include a bonding jumper between the hot and cold waterlines at the water heater

fixture if the entire system is copper, excluding the service.

67. *Amend Section E3609.7 Bonding other metal piping by deleting "including gas piping" from section.*

68. Appendix G SWIMMING POOLS, SPAS AND HOT TUBS is adopted with the following amendments:

(A) *Delete Section AG105.1 and add:*

Application: The provisions of this chapter shall control the design of barriers for residential swimming pools, spas and hot tubs. These design controls are intended to provide protection against potential drowning and near-drowning by restricting access to swimming pools, spas and hot tubs. Barriers are to be constructed of metal chain link fence, wood, stone or masonry or other material approved by the code official.

(B) *Add Section AG105.2.11 to read:*

AG105.2.11 All swimming pool excavation sites are required to be enclosed by a temporary construction barrier during installation. Any temporary construction barrier shall comply with the design standards of Section AG105.2. A permanent barrier shall be installed upon completion of the pool structure.

(C) Amend Section AG 105.5 Barrier exceptions as follows:

Change listed reference from Section AGG107 to Section AG108.

SECTION 2. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

SECTION 3. This ordinance shall take effect and be in full force and effect from and after the date of its passage and approval.

PASSED this 16th day of April, 2012.

BILL NO.

ORDINANCE NO.

A BILL TO CREATE AN ORDINANCE ENTITLED:

“AN ORDINANCE AMENDING SECTION 5-38 AND SECTION 5-40 OF THE CENTRALIA CITY CODE TO ADOPT THE 2009 EDITION OF THE INTERNATIONAL FIRE CODE, REGULATING AND GOVERNING THE SAFEGUARDING OF LIFE AND PROPERTY FROM THE FIRE AND EXPLOSION HAZARDS ARISING FROM THE STORAGE, HANDLING AND USE OF HAZARDOUS SUBSTANCES, MATERIALS AND DEVICES, AND FROM CONDITIONS HAZARDOUS TO LIFE OR PROPERTY IN THE OCCUPANCY OF BUILDINGS AND PREMISES IN THE CITY OF CENTRALIA, MISSOURI; PROVIDING FOR THE ISSUANCE OF PERMITS FOR HAZARDOUS USES OR OPERATIONS; AND PROVIDING FINES FOR VIOLATIONS THEREOF.”

WHEREAS, one copy of the “International Fire Code – 2009 Edition” was filed in the office of the City Clerk of the City of Centralia, Missouri beginning November 23, 2011, as announced by public notice in the November 30, 2011 issue of the Centralia Fireside Guard newspaper, and kept available for public use, inspection, and examination in the office of said City Clerk for more that 90 days from and after November 30, 2011; and

WHEREAS, notice of public hearing regarding the proposed adoption of the “International Fire Code – 2009 Edition” was given that a public hearing would be held on March 12, 2012 at the hour of 7:00 p.m. in the City Hall Council Chambers in Centralia, Missouri, said notice have been published in the March 7, 2012 issue of the Centralia Fireside Guard, a weekly newspaper of general circulation in Centralia, Missouri; and

WHEREAS, a public hearing was held at 7:00 p.m. on March 12, 2012 in the City Hall Council Chambers in Centralia, Missouri, by the Board of Aldermen, at which hearing citizens were given an opportunity to be heard in relation to the said proposed adoption of said fire code.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF ALDERMEN OF THE CITY OF CENTRALIA, MISSOURI, as follows:

SECTION 1. Section 5-38 of the Centralia City Code shall be changed, altered and amended to read as follows:

Section 5-38. International Fire Code – 2009 Edition. That a certain document, one (1) copy of which is on file in the office of the City Clerk of the City of Centralia, Missouri, being marked and designated as the “International Fire Code – 2009 Edition”, including Appendices B, C, D, E, F, G, H, I, and J, as published by the International Code Council, Inc., be and is hereby adopted as the Fire Code of the City of Centralia, Missouri, for regulating and governing the safeguarding of life and property from fire and explosion hazards arising from the storage, handling and use of hazardous substances, materials and devices, and from conditions hazardous to life or property in the occupancy of buildings and premises in the City of Centralia, Missouri, and providing for the issuance of permits for hazardous uses or operations: and each and all of the regulations, provisions, penalties, conditions and terms of such “International Fire Code – 2009”, published by the International Code Council, on file in the office of the City Clerk of the City of Centralia,

Missouri, are hereby referred to, adopted and made a part hereof as if fully set out in this Chapter, with the additions, insertions, deletions and changes as hereinafter prescribed in Section 5-39 and Section 5-40.

SECTION 2. Section 5-40 of the Centralia City Code shall be changed, altered and amended to read as follows:

Section 5-40 Amendments to International Fire Code – 2009 Edition. The International Fire Code -- 2009 Edition is amended by additions, deletions, and changes including the changing of Articles, Sections, Subsections, Sub-Section Titles, and the addition of new Sections and new Sub-Sections to read as follows:

1. *Section 103.2* Delete in its entirety.
2. Add new Section 105.6.47 to read as follows:
Section 105.6.47 Fire Performance Art. An operational permit is required to use open flames defined as Fire Performance Art under Section 316 of this code.
3. *Section 105.7* Delete in its entirety and add:
Section 105.7 Required construction permits. The building code official is authorized to issue construction permits for work as set forth in Sections 105.7.1 through 105.7.14.
4. *Section 108.1* Delete in its entirety and add:
Application for appeal. Any person shall have the right to appeal to the Board of Appeals
from a decision of the Code Official covering the matters pertaining to the code application for appeal may be made when it is claimed that the true intent of this code or the rules legally adopted thereunder have been incorrectly interpreted, the provisions of this code do not fully apply, or an equivalent method of protection or safety is proposed. The Board of Appeals shall have no authority to waive requirement of the code.
5. *Section 108.2 Limitation on Authority.* Delete in its entirety.
6. *Section 108.3 Qualifications.* Delete in its entirety.
7. *Section 109.3* Delete in its entirety and add:
Violation penalties. Any person who shall violate a provision of this code or shall fail to comply with any of the requirements thereof or who shall erect, install, alter, repair or do work in violation of the approved construction documents or directive of the Code Official, or of a permit or certificate issued under the provision of this code, shall be guilty of an ordinance violation and, upon conviction, shall be punished by a fine of from one dollar (\$1.00) to not more than five hundred dollars (\$500.00). Each day that a violation continues shall be deemed a separate offense.
8. *Section 111.4* Delete in its entirety and add:
Failure to comply. Any person who shall continue any work after having been served with a stop work order, except such work as that person is directed to

perform to remove a violation or unsafe condition, shall be guilty of an ordinance violation and, upon conviction, shall be punished by a fine of from one dollar (\$1.00) to not more than five hundred dollars (\$500.00). Each day that a violation continues shall be deemed a separate offense.

9. Section 308.1.4 Open-flame cooking devices. Add exceptions A, B, and C as follows:

Exceptions:

- A. One- and two-family dwelling.
- B. Apartment buildings and condominiums.
- C. Where buildings, balconies and decks are protected by an automatic

sprinkler

system.

10. *Add new Section 318 Fire Performance Art*, with subsections 1 through 9 to read as follows:

Section 318 Fire Performance Art

Section 318.1 General. Fire performance art shall be defined as any act (fire juggling, fire eating, etc.) in a public or private place, which utilizes fire for entertainment purposes, outside of a protective housing or in ways which it travels through the air (by one person or multiple persons). These acts do not include pyrotechnics or other open flame devices as regulated by other code sections or permits.

Section 318.2 Permits. A permit in accordance with 105.6.33 shall be secured from the fire code official prior to the date of the fire performance art taking place.

Section 318.3 Space considerations. A 10-foot distance shall be maintained between the fire-involved item and any member of an audience, any combustible decorations, and any combustible item within the immediate performance area. A minimum 10-foot ceiling height is required.

Section 318.4 Extinguishing Agents. At minimum of one (1) 2A-10BC multipurpose fire extinguisher shall be required for every five (5) performers at each performance.

Additional fire extinguishers may be required by the code official based upon the unique circumstances of the performance and occupancy.

Section 318.4.1. One wet towel for each active fire performer shall be provided to extinguish the fire implement. The towel shall be white in color to differentiate its use from other colors that may be used to clean up flammable or combustible liquid spills. Towels used for cleaning up flammable or combustible liquid spills shall be stored in a metal container with a tight fitting lid.

Section 318.4.2. On listed fire blankets shall be provided for every five (5) performers.

Section 318.5. Personal Safety. A five gallon open-topped bucket of water will be provided for each fire performance area.

Section 318.5.1 Spotter. One trained spotter shall be provided for each performance. The spotter shall be positioned between the active fire performer and the audience. Spotters should be trained in the proper use of fire extinguishers. The spotter may be a performer who is not engaged in the current performance. The fire code official may require additional spotters based on the unique circumstance of the performance and occupancy.

Section 318.6 Fuels. Approved common fuels used for fire performance art include:

Denatured alcohol Lamp Oil (odorless and smokeless)

Kerosene (For outdoor performance only)

Stove Fuel

“Shell Sol T” brand fuel

“Allume Fue” brand fuel

“Fuel Water” brand fuel

Gasoline is prohibited under any circumstances.

Section 318.6.1 Fuel Quantities and Storage. All fuels shall be stored in their original container(s) with the caps in place when not in use. The maximum quantity of fuel on the site shall be one (1) U. S. Gallon per performer.

Section 318.7 Wicks. Wick material shall consist of cotton wrapped in Kevlar to prevent the breakdown of the cotton as it burns. Synthetic wick material shall be avoided.

Section 318.8 Clothing. It is recommended that the clothing worn by the performers be made of fire resistive materials such as natural fibers or Nomex/PBI.

Section 318.9 Smoking. Smoking is prohibited within 50 feet of the performance area and fuel storage. No smoking signs shall be posted accordingly.

11. Add Section 505.1.2 to read as follows:
Section 505.1.2 Each exterior egress doorway on a building shall have a letter affixed to upper left hand corner of the exterior face of the door beginning with the main entrance door and working clockwise around the buildings. The letters shall be a reflective materia, blue in color, a minimum of six (6) inches tall with a minimum stroke of .5 inches.

12. *Section 507.3 Fire Flow* Delete in its entirety and add new Section 507.3 as follows:
Section 507.3 Fire Flow Fire hydrants in areas zoned as single family, duplex or agricultural shall be spaced no greater than every five hundred (500) feet and shall be capable of flowing a minimum of five hundred (500) gallons of water per minute for a minimum of two (2) hours. In all other areas, fire hydrants shall be spaced no greater than every three hundred (300) feet and shall be capable of flowing one thousand (1,000) gallons per minute for a minimum of two (2) hours; as measured by an approved route around the exterior of the facility or building. On site fire hydrants and mains shall be provided where required by the code official. All water supply mains shall be constructed to be no less than six inches in diameter.

13. *Section 507.3.1* Add new *Section 507.3.1*
Section 507.3.1 Where the City of Centralia cannot meet the minimum standards in *Section 507.3* and or *Section B105.1*, alternative safety measures will need to be presented to the code official for consideration.
14. *Section 507.5.1*. Delete in its entirety.
15. *Section 510.1 through Section 510.3* Delete in their entirety and add new *Section 510.1* to read as follows:
Section 510.1 Emergency responder radio coverage in buildings shall be provided in all new high-rise buildings and other buildings when specifically required by the City of Centralia based on known substantiated problems associated with radio coverage.

Denny,

Here is the proposal we talked about. We did have a 10% price increase, but with you being a long time customer, I included 15% in free product for a multi-year agreement which keeps it close to last year's show. If you have any questions, just give me a call.
